Solution: S1
Watchdog

Solution: S2
Dual channel
architecture

Context: ACC_TOP_002
The containing GSN root
has a defined 'prefix'
in 'Inspector'.

Goal: ACC_TOP_001
Unique names are automatically
generated for the created entities.

Context: ACC_TOP_006
If prefix is defined, all
entities names shall conform
to the form 'prefix_XYZ'.

Strategy: ACC_TOP_003
Use 'checking rules'
and quickfixes.

Goal: ACC_TOP_004
Checking rules identify
the names which are not
conforming to the rule

Goal: ACC_TOP_005
Quickfixes are applied
on non-conforming
entities.
